

Shopping list for draught-proofing wall vents

You will need:

- Moroday Gap Filler Rod Cost: \$5 for a 5 metre pack.

Comes in 6mm, 10mm and 15mm diameters. You select a size that is about 3mm larger than the crack or gap that you need to fill as it squashes down. Using this stuff saves you having to waste lots of caulk trying to fill up large gaps and cracks.

You can buy it in packs or by the metre. It is available at most major hardware shops. Bunnings and MagnetMart have it.
